# COMPLETE ALL 4 STEPS. REMEMBER TO PLUG IN ONE POWER CABLE AND ONE AUDIO CABLE 📝

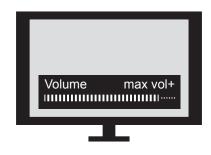

RCA jacks on TV must be designated

## NO SOUND? CHECK YOUR TV SETTINGS.

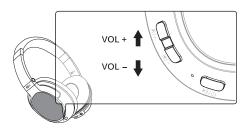

#### ADJUSTING VOLUME

Maximize the volume level on your TV, then use volume controls on headphones to adjust to preferred volume

If you are using the Optical cable, you may mute the TV speakers, which allows you to directly control the volume on your Bluetooth headphones.

WHEN FINISHED, POWER OFF HEADPHONES **UNTIL NEXT USE** 

# SUBSEQUENT USE

WHEN READY TO USE AGAIN, POWER ON THE HEADPHONES AND THEY WILL RECONNECT AUTOMATICALLY.

Do not put the Connect or your headphones into pairing mode.

A solid blue light on the Connect will indicate that a connection has been re-established.

# **ADDITIONAL INFORMATION**

### FACTORY RESET/CLEAR MEMORY

To perform a factory reset of the *Connect*, hold **Pairing button "A"** for approximately 5 seconds until the blue indicator light stops blinking.

All previously paired devices will be cleared from memory and a new pairing will need to be created by following the procedure in **STEP 2** 

### LED INDICATOR LIGHTS

The status of the Connect is shown by a green power / charging indicator light on the rear of the unit and two blue indicator lights on the top as follows:

INDICATOR LIGHT (S)	CONNECT STATUS
USB Power plugged in, green power indicator light solid	Battery full
USB Power plugged in, green power indicator light pulsing slowly	Charging
USB Power not plugged in, green power indicator light solid	Powered on
USB Power not plugged in, green power indicator light blinking rapidly	Low battery
Blue light blinking	Pairing mode active
One solid blue light	One Bluetooth device is connected
Two solid blue lights	Two Bluetooth devices are connected

### **SAFETY AND CARE**

- · Battery performance will be severely decreased when stored in extreme temperatures: below -10°C/14°F or above 45°C/113°F including direct sunlight.
- The lifetime of the battery will be significantly reduced if your device is not charged for a long time. It is recommended to charge your device at least once a month.
- Clean with a soft, slightly damp cloth. Do not use chemical cleaners.
- There are no user replaceable/reparable parts in this device. Disassembling it will void your warranty.

#### WARNINGS

This device is designed and manufactured to operate within its defined design limits. Misuse may result in electric shock or fire. Read and follow these instructions carefully.

- To prevent fire or shock hazards, do not expose this unit to rain or moisture. If the device comes in contact with liquids, quickly wipe away. If submersed in water, do not turn the device on until completely dried. Note: liquid submersion voids the warranty.
- Danger of explosion or fire if batteries are damaged. Keep away from direct sunlight, naked flames, flammable gasses, or heat sources such as radiators or stoves
- Only use attachments/accessories specified by the manufacturer

Changes or modifications to this unit not expressly approved by MEE audio could void the user's authority to operate the equipment.

Keep the device and packaging out of reach of children

#### **COMPLIANCE INFORMATION**

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

### FCC RULES

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Relocate the receiving antenna.
- · Increase the separation between equipment and receiver.
- · Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

#### WARRANTY

MEE audio products purchased from authorized resellers are covered by a 1-year manufacturer warranty. For more information, visit MEEaudio.com/support

#### **DISPOSAL AND RECYCLING**

Dispose of this product in accordance with all local laws and regulations. Because this product contains electronic components and a battery, it must be disposed of separately from household waste. Contact local authorities to learn about disposal and recycling options.
