Get Started

1. Plug the micro-USB power cable into the micro-USB power port of the N1.
2. Plug the USB end of the cable into an AC adapter, TV, or computer USB port.
3. Charge for 2 hours.

Choose ONLY ONE audio cable supported by your TV

**CHOICE A: OPTICAL**

1. Remove protective caps from both ends of the digital optical S/PDIF audio cable.
2. Plug digital optical S/PDIF audio cable into the OPTICAL audio input of the Connect.
3. Plug the other end into the TV's headphone jack.
4. Test for sound. Make sure the volume on both your TV and headphones is turned up.
5. Proceed to STEP 4.

**CHOICE B: 3.5 MM**

1. Plug 3.5 mm audio cable into the 3.5 mm audio input of the Connect.
2. Plug the other end into the TV's headphone jack.
3. Test for sound. Make sure the volume on both your TV and headphones is turned up.
4. Proceed to STEP 4.

**CHOICE C: RCA**

1. Plug red/white ends of RCA audio cable into the TV's red/white RCA AUDIO OUT port.
2. Plug 3.5 mm end of RCA audio cable into the 3.5 mm audio input of the Connect.
3. Headphone jack may be located on rear, side, front, or bottom of TV.
4. Proceed to STEP 4.

Adjusting Volume

Maximize the volume level on your TV, then use volume controls on headphones to adjust to preferred volume.

When finished, power off headphones until next use

Hold the Multifunction button on the N1 for 3 seconds to power off.

Subsequent Use

When ready to use again, power on the headphones and they will reconnect automatically.

NEED HELP?

Scan QR code or enter the URL below into your web browser:
MEEaudio.com/ConnectVid

If you are using the Optical cable, you may mute the TV speakers, which allows you to directly control the volume on your Bluetooth headphones.

Tap the Volume Up or Volume Down buttons on the N1 to adjust headphone volume.

Do not put the Connect or your headphones into pairing mode.

A solid blue light on the Connect will indicate that a connection has been re-established.
**Overview**

The Connect N1 can be used as a headset when connected to phones and tablets. It can also be used as a speaker for audio devices.

**Pairing with Other Devices**

The N1 can be used as a headset when connected to phones and tablets. It will first need to be paired with each device. To pair the N1 with a new device, put it in pairing mode by holding the Multifunction button for about 7 seconds until you hear the headset say "Pairing" and the light flashes red and blue. If your phone or tablet does not automatically search for new devices, select "MEE audio N1" on the device.

**Controls with Phones and Tablets**

- **Volume up/skip track button**
- **Volume down/previous track button**
- **Multifunction button**
- **Micro-USB charging port**
- **3.5 mm audio input**
- **OPTICAL audio input**
- **Micro-USB POWER port**

**Safety and Care**

- Battery performance will be severely decreased when stored in extreme temperatures: below -10°C/14°F or above 45°C/113°F in direct sunlight.
- The lifetime of the battery will be significantly reduced if your device is not charged for a long time. It is recommended to charge your device at least once a month.
- Clean with a soft, slightly damp cloth.
- Do not use chemical cleaners.
- There are no user replaceable/reparable parts in this device. Disassembling it will void your warranty.

**Warranty**

MEE audio products purchased from authorized resellers are covered by a 1-year manufacturer warranty. For more information, visit MEEaudio.com/support

**Compliance Information**

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

**FCC Rules**

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Relocate the receiving antenna.
- Increase the separation between equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

**Disposal and Recycling**

Dispose of this product in accordance with all local laws and regulations. Because this product contains electronic components and a battery, it must be disposed of separately from household waste. Contact local authorities to learn about disposal and recycling options.
