Factory Reset

To perform a factory reset first put the adapter in **standby mode** (powered on but not connected). To do this, turn off Bluetooth or delete the **Massdrop x MEE BT Cable** pairing from any previously-paired Bluetooth devices in range.

Once in standby mode, press and hold the **multifunction** and **volume down** buttons simultaneously for 3 seconds until you hear "Memory Cleared". All previously paired devices will be cleared from memory and the adapter will automatically enter pairing mode.
