**Package Contents:**

- Connect Bluetooth Transmitter
- Matrix Cinema Bluetooth Stereo Headphones
- 2 x Micro-USB power cables
- Digital optical S/PDIF audio cable
- 3.5mm audio cable
- RCA audio cable

**Getting Started**

1. Plug the micro-USB power cable into the micro-USB POWER port of the Connect.
2. Plug the USB end of the cable into an AC adapter, TV, or computer USB port.

**Charge Headphones**

1. Plug the micro-USB power cable into the micro-USB power port of the Matrix Cinema.
2. Plug the USB end of the cable into an AC adapter, TV, or computer USB port.
3. Charge for 2 hours.

**Complete All 4 Steps. Remember to Plug In One Power Cable and One Audio Cable**

**Step 1**

**Power ON and Connect**

The Connect transmitter and Matrix Cinema headphones are paired and ready to use and will connect automatically once powered on.

1. Slide the ON/OFF switch of the Connect transmitter to the ON position.
2. Slide the ON/OFF switch of the Matrix Cinema headphones to the ON position.
3. A solid blue light will appear on the transmitter to indicate that a connection is established.
4. Proceed to Step 3.

**Step 2**

**Getting Started**

Proceed to Step 3.

**Step 3**

**Choose ONLY ONE audio cable supported by your TV**

**Choice A: Optical**

1. Remove protective caps from both ends of the digital optical S/PDIF audio cable.
2. Plug digital optical S/PDIF audio cable into the OPTICAL audio input of the Connect.
3. Plug the other end into the TV's DIGITAL AUDIO OUT (OPTICAL) port.
4. Test for sound. Make sure the volume on both your TV and headphones is turned up.
5. Proceed to Step 4.

**Choice B: 3.5 mm**

1. Plug 3.5 mm audio cable into the 3.5 mm audio input of the Connect.
2. Plug the other end into the TV's red/white RCA AUDIO OUT port.
3. Test for sound. Make sure the volume on both your TV and headphones is turned up.

**Choice C: RCA**

1. Plug red/white ends of RCA audio cable into the 3.5 mm audio input of the Connect.
2. Plug 3.5 mm end of RCA audio cable into the 3.5 mm audio input of the Connect.
3. Test for sound. Make sure the volume on both your TV and headphones is turned up.

**Step 4**

**Adjusting Volume**

Tap the Volume Up or Volume Down buttons on the Matrix Cinema to adjust headphone volume.

**Changing Audio Mode**

Tap the CinemaEar button on the Matrix Cinema to enable CinemaEar and to change the audio mode. There are four audio modes available:

- **Clear Voice Mode**
  - Boosts speech clarity to make dialogue easier to hear over background sounds.
- **Clear Voice Plus Mode**
  - Additional enhancement to provide a greater sense of presence, clarity, and intelligibility.
- **Dynamic Music Mode**
  - Enhances bass response and depth to create more impact and immersion with movies and music.
- **Bass Boost Mode**
  - Enhances bass response and depth to create more impact and immersion with movies and music.

**Powering Off**

When finished listening, power off headphones until next use.

**Subsequent Use**

When ready to use again, simply power on the headphones and they will reconnect automatically.

**No Sound? Check Your TV Settings.**

1. Change Sound Output to "Optical".
2. Change Digital Audio Output Format to "STEREO" or "PCM".

**Matrix Cinema**

This may also need to be done in the audio output settings menu(s) of your streaming app(s) and/or device(s) such as Apple TV+.

---

**No Sound? Check Your TV Settings.**

1. Change Sound Output to "Optical".
2. Change Digital Audio Output Format to "STEREO" or "PCM".

**Matrix Cinema**

This may also need to be done in the audio output settings menu(s) of your streaming app(s) and/or device(s) such as Apple TV+.

---

**No Sound? Check Your TV Settings.**

1. Change audio output settings to "VARIABLE".
2. Set TV's internal speakers to "OFF".

**Matrix Cinema**

**Not Available in all regions.**
**Pair New/Additional Bluetooth Headphones**

This procedure is used to re-pair the Matrix Cinema headphones if they do not reconnect automatically to a different headphone with the Connect transmitter, or to pair a second headphone when one is already connected. Note: Turn off all nearby Bluetooth devices, including TVs, phones, tablets, computers, etc. before beginning the pairing process.

1. Put your Bluetooth headphones in pairing mode.

   **Matrix Cinema Headphones:** Slide the ON/OFF switch to the ON position, then hold the Multifunction button for about 5 seconds until the status indicator light begins to flash red and blue and the headphone says “Ready to Pair.”

   **Other headphones:** Consult the user manual of your Bluetooth headphones for the correct pairing procedure.

2. Once the headphones are in pairing mode, click **Pairing button “B”** once to put the Connect in pairing mode.

   Blinking blue light will change to solid blue light once successfully paired. If two headphones are paired, two solid blue lights will be shown.

**Factory Reset/Clear Memory**

To perform a factory reset of the Connect, power on the Connect and hold Pairing button “A” for approximately 5 seconds until the blue indicator light stops blinking.

All previously paired devices will be cleared from memory and a new pairing will need to be created by following the pairing procedure above.

**Charging**

The Matrix Cinema headphones should be charged roughly every 28 hours of use. Connect micro-USB cable to the charging port of the Matrix Cinema and a powered-on computer or USB charger. Charging time is 2 hours. The red charging indicator light will turn off once fully charged. Low battery is indicated by a flashing red status indicator light and “battery low” voice notification every five minutes.

**Pairing With Other Devices**

The Matrix Cinema can be used as a headset when connected to phones and tablets. It will first need to be paired with each device.

To pair the Matrix Cinema with a new device, power it on and put it in pairing mode by holding the Power / Multifunction button for about 5 seconds until the status indicator light begins to flash red and blue in an alternating pattern and the headphone says “Ready to Pair.”

Open the Bluetooth menu on the device you wish to pair (usually located in Settings->Bluetooth). If needed, select “search for devices”, “add new device”, or “refresh.” Select “MEE audio Matrix Cinema” and allow pairing to complete.

It is only necessary to pair your headphones once with each new device.

**Controls With Phones and Tablets**

The headphone controls on the Matrix Cinema are located on the right earcup.

- **Power On / Off Switch:**
  - Switch in OFF position - Power On
  - Switch in ON position - Power Off

- **Multifunction button**:
  - [TAP] - Play / Pause (during media playback*)
  - [TAP] - Answer Incoming Call
  - [HOLD 2 sec] - Reject Incoming Call
  - [TAP] - Hang up (during phone call)
  - [HOLD 2 sec] - Siri® / Google Assistant™ / Voice Command
  - [HOLD 3 sec] - Disable CinemaEAR

- **Volume Down / Previous Track button**:
  - [HOLD 2 sec] - Decrease Volume

- **Volume Up / Skip Track button**:
  - [HOLD 2 sec] - Increase Volume
  - [TAP] - Next Track

- **Hold Both Buttons:**
  - [TAP] - Dial Call (during phone call)
  - [TAP 3 sec] - Volume Off

**Changing Audio Mode**

CinemaEAR is an advanced audio enhancement feature that allows for on-the-fly audio adjustment with four different hearing and sound enhancement modes:

- **Clear Voice Mode**
  - Boosts speech clarity to make dialogue easier to hear over background sounds

- **Clear Voice Plus Mode**
  - Additional enhancement to provide a greater boost in speech clarity and intelligibility

- **Dynamic Music Mode**
  - Improves bass and treble response to make music sound more lively and exciting

- **Bass Boost Mode**
  - Enhances bass response and depth to create more impact and immersion with movies and music

**Disabling Audio Prompts**

The Matrix Cinema’s voice prompts can be disabled for uninterrupted listening.

- **Enable Audio Prompts:** In standby mode*, press and hold the Volume up button for 5 seconds.
- **Disable Audio Prompts:** In standby mode*, press and hold the Volume down button for 5 seconds.

**Disabling Status Indicator Light**

The status indicator light on the right earcup of the Matrix Cinema can be disabled for uninterrupted use in low-light environments.

- **Enable Indicator Light:** Press and hold Multifunction and Volume down buttons for 3 seconds
- **Disable Indicator Light:** Press and hold Multifunction and Volume up buttons for 3 seconds

Note: the charging and low battery notification light on the left earcup cannot be disabled.
WARNINGS
Using headphones at high to moderate volumes for extended periods of time will result in permanent hearing damage. It is advised you keep volume levels moderate to low at all times for your safety. Do not use while driving a car, cycling, operating machinery, or performing other activities that require hearing surrounding sounds.

Keep the device and packaging out of reach of children.

This device is designed and manufactured to operate within its defined design limits. Misuse may result in electric shock or fire. Read and follow these instructions carefully.

Danger of explosion or fire if batteries are damaged. Keep away from direct sunlight, naked flames, flammable gasses, or heat sources such as radiators or ovens.

Battery performance will be severely decreased when stored in extreme temperatures: below -10°C/14°F or above 45°C/113°F including direct sunlight

Battery performance will be severely decreased when stored in extreme temperatures: below -10°C/14°F or above 45°C/113°F including direct sunlight

The lifetime of the battery will be significantly reduced if your device is not charged for a long time. It is recommended to charge your device at least once a month.

Clean with a soft, slightly damp cloth. Do not use chemical cleaners.

There are no user replaceable/reparable parts in this device. Disassembling it will void your warranty.

Do not expose the device to liquids. If the device comes in contact with liquids, quickly wipe away. If submerged in water, do not turn the device on until completely dried. Note: liquid submersion voids the warranty.

Do not use around flammable gasses as fire or explosion may occur

Do not use around flammable gasses as fire or explosion may occur

Changes or modifications to this unit not expressly approved by MEE audio could void the user’s authority to operate the equipment.

FCC RULES
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions manual, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Relocate the receiving antenna.
- Increase the separation between equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

COMPLIANCE INFORMATION
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

DISPOSAL AND RECYCLING
Dispose of this product in accordance with all local laws and regulations. Because this product contains electronic components and a battery, it must be disposed of separately from household waste. Contact local authorities to learn about disposal and recycling options.
